Grain Power, polish company, founded in 2018 has unique network of links connecting small and medium business across continents, with focus on Africa and Europe. Those connections are supported by local authorities and governments.

AGROPOL project, common initiative of Poland and Democratic Republic of Congo is, in fact, based on cooperation between **GRAIN POWER** and African Union Development company.

Polish ambassador **Piotr Myśliwiec** and **GRAIN POWER** CEO **Jarosław Kurgan** on inauguration of AGROPOL project in Kinshasa, april 2022.

GRAIN POWER will be supplier of agro-technical equipment for the whole AGROPOL project. I.e. tractors, harvesters, watering installations, storage facilities, food processing machinery and much more...

European producers are invited to cooperate and share part of the african market - currently fastest growing market on the planet.

GRAIN POWER is engaged in infrastructure and agro projects in Kenya, South Africa, Democreatic Republic of Congo and Nigeria.
